

Kopis PC15: All-in-one Touch PanelPC

This 15" all-in-one touch PC provides highly customizable fan-less platform for use in a variety of industrial applications.

Performance Characteristics

An XGA display and projected capacitive touch sensor provide excellent optical characteristics and support multi-touch gesturing. The compute platform is built around dual core Intel® Atom™ processors.

Ergonomics:

The chassis has customizable I/O plates to support a variety of configurations, and add-in PCI-e card support allows application specific I/O. Customer branding is supported with easily modified bezel graphics.

Regulatory/Environmental:

Designed for FCC, UL and CE safety and emissions compliance.

Lifecycle:

Seven year availability.

Kopis PC15

EmbedTek designs, invents, and manufactures computers, software, sensors, cameras, and displays for original equipment manufacturers. Our systems improve the quality of imaging in healthcare, simulation programs in the military, video analytics in security, and much more. Throw any challenge at us, from demanding environment and ergonomic requirements to High Level Assembly and nonstandard I/O. We'll evaluate it, carefully attack it, and solve it.
