

Kopis PC21: All-in-one Touch PanelPC

This 21.5" all-in-one touch PC provides high compute and optical performance in a rugged, long-life platform.

Performance Characteristics

An HD 1080 display features excellent viewing angles, color depth and contrast ratio to give a superior viewing experience. A projected capacitive touch screen allows multi-touch gesturing. The compute platform supports the latest Sixth Generation Intel® processors.

Ergonomics:

The cast aluminum chassis has customizable I/O plates to support a variety of configurations, and full height I/O card support allows application specific I/O. The touch screen graphics layer can be customized for branding purposes.

Regulatory/Environmental:

Designed for FCC, UL, CE safety and emissions certification.

Lifecycle:

Seven year availability.

Kopis PC21

EmbedTek designs, invents, and manufactures computers, software, sensors, cameras, and displays for original equipment manufacturers. Our systems improve the quality of imaging in healthcare, simulation programs in the military, video analytics in security, and much more. Throw any challenge at us, from demanding environment and ergonomic requirements to High Level Assembly and nonstandard I/O. We'll evaluate it, carefully attack it, and solve it.
