

K0837: Industrial/Agricultural PanelPC

This sealed touch-screen Panel PC is used in industrial/agricultural monitoring. It would also work well in other applications requiring wash down capability.

Performance Characteristics System is built around the Intel® line of processors, for improved thermal management in a sealed enclosure. All-in-one system includes 19" display with protected touch screen.

Ergonomics:

18" (457mm) W x 14 ½" (368mm) H x 4 ½" (114mm) D. The stainless steel enclosure can be modified with waterproof I/O connections for custom applications.

Regulatory/Environmental:

The product will withstand a 40 PSI spray down across all surfaces without ingress, and it will operate under heavy processor loads in 110°F temperatures. It is certified for UL/CSA/FCC safety and emissions standard.

Lifecycle:

Seven-year availability.

K0837

EmbedTek designs, invents, and manufactures computers, software, sensors, cameras, and displays for original equipment manufacturers. Our systems improve the quality of imaging in healthcare, simulation programs in the military, video analytics in security, and much more. Throw any challenge at us, from demanding environment and ergonomic requirements to High Level Assembly and nonstandard I/O. We'll evaluate it, carefully attack it, and solve it.
