# Kopis 0834:
## Low Profile Panel PC

This compact panel PC provides an interactive touchscreen interface for multiple A/V and networked sources. The current product serves as the control/entertainment console for commercial fitness equipment, but it could be used in a variety of systems where users need to interact with a high-quality display.

**Performance Characteristics**
Supports dual-core Intel® Atom™ processor with embedded graphics. Uses all COTS components. All-in-one system includes 24-bit color, 300 nit 15.6″ display.

**Ergonomics:**
The aluminum enclosure was designed to be low profile to support integration into sleek plastic enclosure supporting desired branding.

**Regulatory/Environmental:**
The system meets FCC emissions and supports UL/CE listing in higher level assembly.

**Lifecycle:**
Seven-year availability.

## Kopis 0834

EmbedTek designs, invents, and manufactures computers, software, sensors, cameras, and displays for original equipment manufacturers. Our systems improve the quality of imaging in healthcare, simulation programs in the military, video analytics in security, and much more. Throw any challenge at us, from demanding environment and ergonomic requirements to High Level Assembly and nonstandard I/O. We'll evaluate it, carefully attack it, and solve it.
